LORDS OF THE EARTH

CAMPAIGN TEN

Turn #16

Industrial Stage Zero: The Medieval Era

1180 Anno Domini

Orders Due:

Friday, 8 May, 1992

Announcements

Feudal Allies: Feudal vassals cannot perform diplomacies.

Agro Surpluses in Lords 10: Nations whose ESI of 50 or less can "cash" in their agro surplus at 1 GP per agro point or 1 NFP per 2 agro point. Nations with an ESI between 100 and 50 can cash in their surplus and get 1 GP per 2 agro points and 1 NFP per 4 agro points. The trend here is as a nation get bigger and richer the economic value of the absolute returns of giving food to the people declines to almost nothing.

Internal Trade Fleets: Income generated by internal trade fleets should be added to Inter-City on your new order forms.

New Intel Action: Reassign Operations (RO). This intel operations action can reassign 2 assassin capacities to perform operation actions, and likewise reassign 2 operation capacities to perform assassination. Each bonus point added to the operation will reassign 2 bonus points.

Maintaining Trade: You don't have to list the trade partners that you want to maintain trade with in your orders.

Urban Battles: A defending city acts like 5 field forts per City GPV. These will act to resist an invading army, especially if supported by a leader and an army. Cavalry units are more liable to being killed than ground troopers in the city. Urban Battles will destroy half of a city's PWB. If an invader conquers the city through Urban Warfare then the city will lose 1 GPV. Though it may sound nasty, this may be the last stand for a defender that has lost the city walls (or have no walls).

Lords 10 Unit Conversion: Each point of cavalry and infantry (light or heavy) represents 500 fighting men. A merchant or galley point = 10 ships with 100 men aboard. A siege point = 500 specialists and requisite equipment. A field fort point = 5 forts manned by 100 men each. A wall point = 500 men manning lots of ramparts, towers, walls. An auxiliary point = approximately 50 small platform boats with 5 man crews. The guard unit = a thousand of your empire's meanest, most grumpy warriors.

Mass Player Letters: In case you're interested this is my policy regarding the sending off to other players multiple letters.

Definition: Mass Player Letters are multiple form or photocopied letters, treaties, foreign policy announcements sent by a player to three (3) or more other players. Also included are forms or letters sent to any player exceeding four (4) sheets. If you are just sending a simple diplomatic note or two, you are exempt.

Policy: Because my shipping costs increase because of the bulk of Mass Player Letters, I require a \$5 per sheet which can be either delivered to me with your turn or deducted from your current credit. I will not type nor photocopy any Mass Player Letter unless you want it in the newsletter itself. Since many of these notes are of historical significance, I request an extra copy of these be sent to me; you will not be charged 5¢ per sheet if you do so.

Reprints: regular sized (8 x 11), \$2.00. +\$1.00 delivery. For large sized maps(11 x 17) the price is double.

Color Map: Every turn I make a colored map of the world. These are on 8 x 11 sheets. They show exactly who controls what in the world at that turn and the regions are discernable. If you want a copy, the cost is \$3.00 per map. Since the regions of Italy are too small for the world map, I also make Italian color maps, these too are \$3.00.

Rules Used in Lords Ten: I am using the 1986 4th Edition Rulebook and the 1991 Version II Rules Supplement and Addenda v2.0. Rules that are unique to 10 are found in the Campaign Nine Rules Supplement v. 3.0 and the Lords Ten Supplement v.1. In case of conflicting information the the Nine & Ten Rules and the prevail over the others and the Version II prevail over the 4th Edition Rulebook.

THE EMIRATE OF GAOTA (6.4C/VB)

Kareem Abu Habib, *Emir of Gao*

Trade Partners: Bug, Kongo**

DIPLOMACY: Khalem(nt), Gambia(ea), Hausa(c)

The newest Gaota star, Prince Mustafa, marched the big burly man past Khalem to Gambia. At Gambia, they discovered that there was indeed an endless horizon of salty blue water towards the rising sun.

"We have reached the end of the earth."

The Myths say that this endless blue void surrounds the earth in every direction. Each year the sages say the water washes more earth into oblivion.

"It is dangerous to linger too closely. Let us get away from the azure death."

Kareem Copbat sold Olga to a merchant in Hausa for a grain of salt. Life was easier for the squire henceforth. Yatackko died in prison of heartbreak. The ongoing bad harvests started killing people. Gao and Timbuktu each lost a gold point level. Jenne became a ghost town. The auxiliaries in Gao started fishing.

Toshala urged the upcoasters to stop their war raids but didn't send the massive interventionist army there. Douala, Ezoaha and Uige quietly left the realm. This cut the upcoast trade.

Too bad it was wildebeest season so the plans are on ice right now. When pressed by the curious what ice is, the new king Niro Nogo waved them off and said, you'll find out in twenty thousand years. THE GAIDHEALTACHD NA EIRE (X)

Vercin Ui Niall abandoned a disorganized Sussex to return back to Galway, Connaught. There he picked up reinforcements. He had intended to raze Gotham town but was intercepted by Batman. Well maybe not Batman. Would you believe "Dirty" Hans from Norway. The Norse fleet caught the Irish in the English Channel and out muscled them in sea combat. Vercin withdrew what few boats he had and hightailed it back to Galway to defend his capital using that new urban warfare rule. Dirty Hans had what it took to deal with the Irish. The Norse cavalry attacked Vercin and his doughty Irish townsmen in Galway. Vercin's defense failed to stand against the Vikings. Vercin was killed and the

town was destroyed. Connaught was then thoroughly looted by the Norwegians. All the lands who said they were loyal to the High King weren't and they thumbed their nose in unison. Vercin's son Melvin was hiding in Orkney but the Picts there would have none of him. He was killed, stuffed and his taxdem was sold to Dirty Hans later in the year.

THE NORMAN KINGDOM OF SAXONIA (18.8C/G)

Robert the Great, *King of the Saxons and of the Normans*

Trade Partners: Mahidia, Andalus, Liguria*, Theary*, Francia, Russia-- , Islam(3.7c)-

DIPLOMACY: Maine(h), Brittany(a), Weesex(f), Vermandois(h)

The Saxons really didn't put too much effort in fending themselves against the Irish raiders. They didn't have to. The Danes took care of everything. Disaster averted, the Count of Blois (who's really from Castille), got a new compliment of allied troopers with which he restored order in Sussex. He later forced tribute from Mercia and Dyffed. With the Knights Who No Longer Say "Nyeh" accompanying them, the Ponthieu knights jumped on recalcitrant Orleans. After arranging a tribute schedule from the vanquished, The Ponthieu took a break for diplomacy there would have been futile. A reconnaissance in Lyonnais found that the Flemish had decided to go underground. Catalonia was lost to a pro-Papal bandit attack.

THE ALLEGED DUCHY OF FLANDERS (0C/N)

Michael II, *Duke of Something, Son of the Apostate*

Trade Partners: don't trade with us, we're closed

DIPLOMACY: who knows...

Duke Michael and his son Michael II faked their deaths in Lyonnais, using ketchup for blood. They then dressed like yodelers from Switzerland and joined the underworld. Lepontine, Languedoc and Lyonnais were fooled by this trick was declared their independence. Trentio and Lessini saw through the deceit. The Swabian allies attacked Catalonia and made it their new vacation homeland. They declared loyalty to the Pope. There's a rumor out there now that Michael's death may have not been fake. Must have been allergic to ketchup.

THE ALMORAVAI D EMIRATE OF ANDALUSIA (11.0C/G)

Azim, *Emir as Sevilla*

Trade Partners: Mahdia, Saxon, Liguria-, Byzantion*

DIPLOMACY: Talavera(nt), Idjil(ea), Salamanca(ea)

Trade Partners: Mahidia, Israel-, Saxon*, Andalus*, Spoleto, Tarantum,

Francia, Russia(2.8b)-, Byzantine-

DIPLOMACY: Ticino(nt), Oglio(c), Versella(ea)

THE REPUBLIC OF FLORENCE (2.6C/B)

Davide di Nervi, *Urban Manager of Firenze*

Trade Partners: Spoleto

DIPLOMACY: Commachio(c), Chiana(a)

Florence's diplomats were thrust into a bidding war with Ligurians for control of Commachio and Romagna. The Republic is making some headway. They've already got Bologna and now they have a sandwich in Ravenna. The continuing bad harvest have caused malnutrition in the cities. Florence dropped to 1 Gpv. Lucca dropped to 0 Gpv.

THE ROMAN CATHOLIC CHURCH (3.0C/B)

Matthew, *Pope of Rome, Vicar of Christ, God's Chancellor Upon This Earth*

Trade Partners: none

DIPLOMACY: Catalonia(nt), Maremma(nt), Amiate(n)

"Michael Baldwin, I have not seen evidence of thy true repentance. However, with the exception of the nation of Saxonia, consider thyself protected by the Pax Vaticana. The two of thee shall war upon each other, for both of thee are fools! Do not bring any other nations into thy petty war, or face the wrath of the Living God! When thou hast made peace with Saxonia we shall speak again of the state of thy and thy countries' souls. People of the world: Stop thy senseless wars! Look upon one another with love. The peace that Jesus taught is open to all! I beseech all of thee, look inside thy heart and find the love Jesus Christ. It waits for thee."

The Pope founded the soon to be infamous Papal Library in Rome. The homeland ports of Latium saw the construction of a merchant fleet which was

sent to trade with Liguria. Cardinal Gregory was recalled from his service with the Saxons. Cardinal Simon came home from Theary.

THE LOMBARD DUCHY OF SPOLETO (3.6C/B)

Cino de Sica, *Lagobard Doge of Spoleto*

Trade Partners: Liguria, Florence, Tarantum

THE NORDIK KINGDOM OF THAERY (5.6C/G)

Christine, *Queen of the Danes*

Trade Partners: Francia, Poland, Russia-

DIPLOMACY: Brabant(n)

The Queen did the work of a ruler. The real macho stuff she let Hans of Norway do. Christine lent Hans all of her ships. But when Hans dusted off the Irish, he ran away with the ships. He declared himself a king in Norway.

"I want my ships back, Hans! Give me back my ships!"

Cardinal Simon was yanked back to Rome for consultation.

THE KINGDOM OF NORWAY (0.7B/N)

Hans, *King of Norway, Admiral of the Navy*

Trade Partners: none

Ernst, *Panarch of Francia*

Trade Partners: Liguria, Theary, Poland, Byzantion*

DIPLOMACY: Slovenia(ea), Alsace(t), Giulia(nt), Plave(t)

The Franken made München their capital. A very wild Oktobrefest was thrown which nearly "destroyed" the capital but only for a fortnight. The new king took the title "Panarch" which is five times more keen than "monarch" so the monks would have you believe. There's a lot of skulduggery going on but it's easy to be a skulk in the Black Forest.

THE MARGRAVATE OF POLSKA (4.2B/VG)

Boleslav III, *Markgraf of Poland*

Trade Partners: Theary, Francia, Hungary, Russia

DIPLOMACY: Sorbia(fa), Bochnia(a), Moravia(f)

Bochnia's turned cultivated.

King Boleslav hissed for he know he missed the Papal deadline for the prohibition of war. He took his army home and cooled his aching heels. He had this heralds memorized his words:

"The wasteland that is Europe was once greener and more whole. Its fall has come from one thing; war. The Holy Father has asked us to stop shedding blood and I will be the first to honor him. I end this war between Francia and myself right now ere it was to begin."

THE MAGYAR KINGDOM OF UNGARN (0.6B/N)

Zsolt, *Khan of Ungarn*

Trade Partners: Poland, Byzantine

DIPLOMACY: Özu(nt), Transylvania(c), Moldavia(nt)

The Magyars received a gold infusion from the Nikephorian Courts which was converted to better equipment for some of the knights. He led his horde to Dobruja, loaded onto Byzantine galleys and disembarked in Optimaton to kill the Turks. Optimaton after its conquest was garrisoned by Ungarn horsemen. The Ungarn rulers call this region 'Anatolia'. After this was done the Ungarn were dropped off on Özu where they wintered. The allies in concert galloped to Moldavia and cowed the Pechneg cud chewers. Because the Ungarn shifted their focus eastward, Podravina, Bakory & Carpathia have jumped ship. The Ungarn have converted to Greek Orthodox, but only superficially so.

THE PRINCIPALITY OF NOVGOROD (1.8B/N)

Smek Lagodki, *He Who Bathes in Bog*

Ivan, *Grand Prince of Kiev*

Trade Partners: Saxonia**, Liguria (5.6)*, Theary*, Poland

DIPLOMACY: Taman(fa), Crimea(nt), Lithuania(ea), Galich(n), Cherven(n)

The Russians raised many soldiers to deal with the Moldavians. When word came that 38,000 Magyar allies were heading their way, Boris Nicolaiev abandoned his attack on the Pechneg (who were spineless and weak so told) and withdrew back to Kiev. Fears arose when 58,000 more Ungarn horsemen landed on Özu. The boyar council is urging the new Grand Prince to fortify his position.

THE VOLGA BOLGARS (2.4B/N)

Omar, *Emir of Great Bolgar*

Trade Partners: none

DIPLOMACY: Rezh(h), Urkel(ea), Mordva(t)

The Bolgars also stirred with a player willing to trade with all his neighbors. The tribes of Suvar, Urkel and Rezh were just as savage and faithless as the infidels in Mordva, Murom and Suzdal. The Sultan is looking south for his plans.

THE KINGDOM OF GEORGIA (0.7B/N)

Alexus, *Eastern Roman Emperor, Basileus of Constantinople*

Trade Partners: Israel*, Mahidia-, Almoravid-, Liguria*, Francia-, Hungary, Islam

DIPLOMACY: Lydia(t), Thessaly(f), Epirus(fa)

The Emperor imported a willing horde to kill the Turks for them. The Turks were easy pickings and the empire regained control of Lydia and Bythnia (restored to the true faith). The Crete incident cooled relations with the Coptics. The Peloponnesee is cultivated once more. This was good for the Nikephori need as much grain as they can get in their new famine.

THE SELJUK SULTANATE OF IZMID (X)

The Turks died a horrible, painful death.

THE DAR AL ISLAM - The Ortugid Regency (14.8C/B)

Afesus, *Shah of Parthia, Emir of Merv, Archon of Bactria*

Trade Partners: Islam, Hamadan, Ghur

DIPLOMACY: Daylam(t), Fars(ea), Arran(c)

The Afesus Shah placed Karatou, Khokhand and Ferghana into his sphere of influence. The Persians started creeping into the Caucasian area, much to the indifference of the Georgians. Starvation has become a bigger problem.

THE SULTANATE OF GHUR (4.0B/VB)

Mohammad of Ghur

Trade Partners: Parthia, Kaunaj

DIPLOMACY: Pathan(ea), Baluchistan(c), Uehrusane(ea), Badakshan(fa)

THE PRATHIHARA EMPIRE OF KAUNAJ (15.2C/G)Prathara Gopala, *Emperor of Kaunaj*

Trade Partners: Ethiopia*, Islam*, Ghur, Chalukya*, Pagan*, Kambuja-

DIPLOMACY: no effect

The Kota Kingdom tried to aggressively move their frontier zone outward. Prince Gupta² found he could not sway the Muslims of Pathan like the Ghorids could. Force was needed to secure that region. Gupta Gupta did beat the Pathan fair and square on the battlefield but the survivors ducked into that walled city of theirs. He found that he was unable to siege the city passively because of a lack of troops so he withdrew to Jhelum. Sind too was targeted by the Emperor with the majority of the army given to Chandragupta (not to be confused with the King of Chalukya who has the same name). Chandragupta was an ambitious man but never showed this in court. But now in the wild frontier of Sind, Chandragupta realized his dream; there he formed a kingdom of his very own. A more loyal lieutenant Kohngupta handed pacified Nadavaria over to Chalukya. In exchange, the Pratihara got full rights to Vanga. Kohngupta had to beat the local Vanga army in order to enforce Kolla rule there. Tamralipti fell to a passive siege as Kohngupta had some galleys handy. Orissa was allowed to negotiate new treaties with Chalukya.

THE ACHETA RULE OF SIND (5.6B/N)Acheta Chandragupta II, *Ivory Master, Tim Boo Ba*

Trade Partners: none

DIPLOMACY: none

From his new homeland of Sind (converted by some force to Hindu), Chandragupta started living like a king, a palace, servants, a pleasure garden, personal guards, all the food he can eat. Mansura has been renamed Thatta. He took Sukkur and Jats with him in his rebellion from Kaunaj.

THE CHALUKYA MANDALAM (18.0C/N)Chandragupta Chalukya, *The Great Muta, King of the South*

Trade Partners: Islam*, Kaunaj, Pagan, Kambuja*

DIPLOMACY: Satava(t), Pawar(f), Dahala(c), Kwa(f), Orissa(nt), Vengi(fa), Kamata(n), Andhra(ea)

The Mandalam built a port city facing the Nicobar Sea in Kwa. It was named The Golden Portals of the Serpent Queen. With this new city Hindiani Jones successfully seduced the Kwa Chieftess (who did like snakes but only in the karmasutra sense). Bobo checked in at Nadavaria, the newest Chalukya district just after Orissa.

THE KINGDOM OF TIBET (1.6B/B)Dha Buddha, *1st Dalai Lama of Lhasa*

Trade Partners: Pagan

DIPLOMACY: Bhutan(a), Gtsang(a), Siddim(ea)

Ah. Just got the envelope. Let's see. Hmmmmm. Cash, jot that down. A couple of diplomatic notices. So the Holy Lama's going to Siddim, where the yak are black. Beh. Too Bland. The Lama's got to get some kind of cosmic power like Silver Surfer dude. So...

Things were tranquil in the high mountains when the Holy Lama stumbled onto a cosmic teleportation gate. This would lead him to Qazbit-5, energy world, vacation home for the... Inhumans.

"Jumping Jehosaphat, Black Bolt, he's stumbled onto our gate."

"No fear Fido, I'll zap him with this here Cosmic Ray Bazooka which will make him forget that gate. But it'll give him the Power Cosmic as a side effect."

"Don't call me Fido!"

THE KINGDOM OF PAGAN (5.2C/B)Timwa, *Queen of Pagan, Maharaja Myanmar*

Trade Partners: Kaunaj, Chalukya, Tibet

DIPLOMACY: Kayah(a), Arakan(c), Samtata(nt), Manipur(a), Assam(a), Utara(h), Atjeh(h), Andaman Isles(nt), Siberut(nt)

A new city was built along the Irrawaddy in Toungoo. It was named Fido. A lot of important people were on the move ready to capitalize on the opportunities in the rubber industry. The border incursions intensified greatly with the Cambodians. It seems they have been fixing to bag Thaton and Toungoo. The Kayah Tigerman of the headhunters is willing to help the Burmese out. General Kraw made the mistake of dealing with the cannibals of Sumatra. The Atjeh men stole his walking stick. The Utarans captured him and ate his brain for lunch. His expedition fleet are now stranded in Siberut. Queen Timwa when she learned her husband's death started shrouding herself completely in black rubber.

THE KAMBUJADESA (9.6C/G)Suryavarman III, *Emperor of Kambujadesa, Monarch of the Emerald Throne*

Trade Partners: Kaunaj-, Chalukya-, Java-, Vietnam

DIPLOMACY: Nan Pung(nt), Thaton(nt)

The Great One led his mighty host from his new capital Mangfu to Mon and then up the coast to enemy controlled territories. Like, Thaton, for instance.

"Kiss my toes," the God Emperor commanded. "Or my toes will kiss your teeth."

"We live to serve you..."

This pumped Suryavarman's ego up to new levels. So confident he felt he decided to crank that audacity up. He invaded Toungoo.

"Hey look, they built a city here."

"Bonus! Fido?"

The God Emperor's advisors have decided not to tell the divine one that his prowess on the battlefield is not matched in the office. Seylan degraded and Taiwan outright revolted.

THE AQUARIUM OF JAVA (12.4C/G)Carpimsutra, *King of the Spice Islands, A Most Elusive Fish*

Trade Partners: Kambuja*, Vietnam*, Chekiang(5.4c)--

DIPLOMACY: Perak(ea), Jambi(nt)

THE DAI VIET QUO (6.4C/G)Giap Tui, *Wang Dai Viet*

Trade Partners: Kambuja, Java-, Chekiang, Zhong, Tumed*, Nihon(3.8)**

DIPLOMACY: Chiennan(ea), Nan Chao(a)

Duc Tuo at the discretion of Giap Tui was sent off to the northern marches. At every estate he visited, he asked for a daughter for marriage. When none of the landed lords would believe that he would actually give their princesses to the Giap house, Duc Tuo started asking for wives for himself. The South Court fell into total chaos when yet again its leader was fired. He was actually a decent leader, but the king is way precocious; only the very best for the king. Unfortunately, the very best are often the most ambitious...

The Center of the World claimed all of a land called France. Herr Robin von Fang, a Münchener just visiting for the curried duck, got real nervous and left to warn the Frankereich of an impending invasion.

THE HIDDEN DRAGON OF CHEKIANG (10.8C \ 1.2C/B)Quan Tsai, *Celestial King of Chekiang*

Trade Partners: Java(6.2)***, Vietnam, Zhong, Tumed, Japan-

DIPLOMACY: Kiangsi(f), Hwai(f), Kanchou(fa), Kedah(a), Kwangtung(f), Kwangsi(a)

The Dragon curled back in his mountain cave home satisfied that the southern barbarians fear him now. Hengshan the last independent duchy in the Middle Kingdom was conquered by the Governor of Kiangsi. Trade was restored with the impertinent Javans but the prize Kedah proved too distant to be an effective outpost area. Kedah's turned cultivated, by the way.
